Date: Apr-02-2008

2.33 (b) (3) **DIRECT NCI**

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Sec. 2.33 Attending veterinarian and adequate veterinary care.

b) Each research facility shall establish and maintain programs of adequate veterinary care that include:

(3) Daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian.

Rabbit #1165A was observed to be recumbent at the time of the inspection. Medical records for that rabbit were incomplete, noting only that the rabbit had been given an antibiotic the previous day. Although the animal was observed by the staff to be in apparent poor health, the attending veterinarian had not been contacted at the time of the inspection (approximately 1515 hours). A system should be in place to ensure that the animals are adequately monitored in order that health conditions may be addressed and the attending veterinarian notified in a timely manner.

This non-compliant item was corrected at the time of the inspection.

2.40 (b) (3) **DIRECT NCI**

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(3) Daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian.

Rabbit #1165A was observed to be recumbent at the time of the inspection. Medical records for that rabbit were incomplete, noting only that the rabbit had been given an antibiotic the previous day.
