3.50 (c)

FACILITIES, GENERAL

? 3.50 Facilities, general. (c) Storage. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against infestation or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

Rabbit Building: One half bag of shavings was open and stored on the floor. Any open bag of food or bedding is to be stored off the floor and in a container with a tightly fitting lid. This is to prevent contamination from vermin and any accidental spillage or moisture.

Corrected at the time of inspection.

3.125 (c)

FACILITIES, GENERAL

?3.125 Facilities, general. (c) Storage. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

Barn Storage Room: One open bale of shavings on the floor. This needs to be in a sealed container such as a garbage can with a tight fitting lid. This is necessary to protect the bedding from deterioration, molding, or contamination by vermin. Possible contamination of hay risks the well being of the animals.

Was corrected during inspection

THIS IS AN AMENDED REPORT- PARAGRAPH HEADINGS WERE LEFT OUT

NO ACTION NEEDED BY THE FACILITY

2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include: (2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care;

One bottle of Dobutamine (250mg/20ml vial) (20ml vial) dated Jan 07: expired drug.
These items potentially could harm the animals treated at the facility. Expiration dates and outdated material may make the items less effective or ineffective. Only current materials should be used on the animals for their well being.

The above item was corrected during inspection.

This was the first complete inspection. It was announced so all the responsible facility personnel could be present. This was to go over the regulations, record keeping and inspect the facility.

Future inspections will be unannounced

I was not able to contact the facility by phone so I made physical contact with Dr. Whitehair. He was in the middle of surgery. They have been extremely busy, so, we will do our first inspection as an announced inspection to go over the regulations and look at the facility.
