Section 3.127 (c) Facilities , outdoor

(c) Drainage. A suitable method shall be provided to rapidly eliminate excess water.

-Puddles with dark color water are noted in one of the goat enclosures. Long standing accumulation of water may become a potential source for growth of pathogenic organisms if not corrected in a timely manner. Facility shall ensure that a suitable method is provided to rapidly eliminate excess water.

CORRECT BY MARCH 16, 2009.

3.125 (a)

FACILITIES, GENERAL

(a) Structural strength. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals

-A hole approximately one foot wide is noted on wire fence in pens 18 and 20. Wire ends extending into enclosure are also noted in these pens. Animals head and feet can pass through these holes and may cause accidental injury when they will try to extricate themselves from this situation. Extended wire ends can also cause injury to animals. The facility shall ensure that enclosures are maintained in good repair to protect animals from injury. Items discussed with manager.

CORRECT BY DECEMBER 27, 2007.
