2.31 (b) (3) (ii) **REPEAT**

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(3) Of the members of the Committee: (ii) At least one shall not be affiliated in any way with the facility other than as a member of the Committee, and shall not be a member of the immediate family of a person who is affiliated with the facility. The Secretary intends that such person will provide representation for general community interests in the proper care and treatment of animals;

The Institutional Animal Care and Use Committee at this institution has been functioning without an actively participating outside member. The last documented attendance record of the outside member was 2007. Records of committee meetings and facility inspections or program reviews did not discuss the lack of an outside member. In order for an IACUC to be a functional IACUC an outside member is required by law. This is a repeat violation.

An exit interview was conducted with the Research Associate II.

In order for an IACUC to be a functional IACUC an outside member is required by law. The Chairmain nor the attending veterinarian identified this deficiency in their committee. I strongly recommend that the IACUC chairman and attending veterinarian and any other member of the IACUC attend a basic IACUC 101 course and familiarize themselves with this aspect of the regulations.
