2.33 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

<<Each research facility shall establish and maintain programs of adequate veterinary care that include: The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries,...>>

An expired drug was found during this inspection (1 tube Paralube Veterinary Ointment, exp. 5/09) which is being used for post-procedural treatment of guinea pigs.

Use of expired medical materials is not considered to be adequate veterinary care as the effectiveness of the drugs cannot be predicted and their use may prolong or induce unnecessary pain or distress to treated animals.

Corrected on site.

Accompanied on the inspection by the Animal Lab Supervisor.
