MOTE MARINE LABORATORY

1600 KEN THOMPSON PKWY.

Type: ROUTINE INSPECTION

SARASOTA, FL 34236

Date: Sep-18-2008

3.101 (a)

FACILITIES, GENERAL.

(a) Construction requirements.

(1) Indoor and outdoor housing facilities for marine mammals must be structurally sound and must be maintained in good repair to protect the animals from injury.

The shallow end of the dolphin enclosure, which functions as a separate medical pool, has a concrete rim that is coated with stucco-like material. This coating is cracked in many places and pieces of the material are missing leaving obvious holes and divots in the coating. At least 3 loose pieces of this coating were noted next to the pool edge during this inspection.

The rim of this pool should be repaired or replaced to maintain the housing facility in good repair. Continued deterioration of this surface could result in accidental ingestion of a foreign body by the dolphins.

Correct by: October 17, 2008.
