BLOOMINGTON, IL 61702

2.31 (b) (3) (i)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The regulations state, "The members of each Committee shall be appointed by the Chief Executive Officer of the research facility.....(3) Of the members of the Committee: (i) At least one shall be a Doctor of Veterinary Medicine, with training or experience in laboratory animal science and medicine, who has direct or delegated program responsibility for activities involving animals at the research facility."

***The attending veterinarian has not been at the facility or attended IACUC meetings for at least the last year and a half. It is very difficult to have program responsibility while not actively participating with the committee or inspecting the animal facility. It is essential that the attending veterinarian play an active role within the committee to ensure the health and welfare of the animals.

Correct by: Prior to the next committee meeting.

2.31 (b) (3) (ii)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The regulations state, "(1) The members of each Committee shall be appointed by the Chief Executive Officer of the research facility...

(3) Of the members of the Committee:...(ii) At least one shall not be affiliated in any way with the facility other than as a member of the Committee, and shall not be a member of the immediate family of a person who is affiliated with the facility. The Secretary intends that such person will provide representation for general community interests in the proper care and treatment of animals...."

***At the last IACUC meeting, no person had been appointed by the CEO as a committee member. The committee was not appropriately formed and an official meeting should not have been held.

Correct by: Prior to the next committee meeting

Inspection Report

2.33 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

The regulations state, "(a) Each research facility shall have an attending veterinarian who shall provide adequate veterinary care to its animals in compliance with this section: (1) Each research facility shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the research facility..."

***Currently, there are no regularly scheduled visits by the attending veterinarian. Also, while there is a written program of veterinary care, it does not contain enough pertinent information to be helpful to the users. To maintain the health and welfare of the animals, the attending veterinarian needs to regularly visit the facility and see that the written program is accurate for the institution.
