Date: Sep-24-2008

2.33 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Each research facility shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to treat diseases and injuries.

1) One outdated bottle of florfenicol injectable (expiration date 8/08) was found in the pharmacy cabinet.

This medication had been previously used to treat a goat with signs of respiratory disease. The bottle should have been removed from the cabinet when it became outdated to prevent the possibility of its being used to treat other animals in the future.

Corrected immediately.
