2.36 (b) (3)

ANNUAL REPORT.

2.36 (b) (3) - "The annual report shall: (3) Assure that the facility is adhering to the standards and regulations under the Act, and that it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the IACUC. A summary of all such exceptions must be attached to the facility's annual report. In addition to identifying the IACUC-approved exceptions, this summary must include a brief explanation of the exceptions, as well as the species and number of animals affected."

1. The Annual Report that was submitted by the research facility to USDA for FY 2007 did not include a summary or explanation of the two exceptions to AWA Standards that had been approved by the IACUC pertaining to Primary Enclosures and Watering for Non-Human Primates.

The research facility needs to submit a corrected Annual Report for FY 2007 to the Eastern Regional Office that includes a summary of the approved exceptions along with the species and number of animals affected by the exceptions. Correct by 8/1/08.
