Date: Aug-06-2008

2.33 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Section 2.33(b)(2) Veterinary care: Each research facility shall establish and maintain programs of adequate veterinary care that include the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.

Three vials of expired Ana Sed (3/08) were found in the lock box in the surgery prep room. The use of expired medical materials on regulated animals is not considered to be acceptable veterinary practice and does not constitute adequate veterinary care as required by the Animal Welfare regulations. The facility must either dispose of all expired medical materials or segregate them in an appropriately labeled, physically separate location from non-expired medical materials.

Correct by August 7, 2008.
