2.31 (d) (1) (ii)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

...the IACUC shall determine that the proposed activities or significant changes in ongoing activities meet the following requirements:

(ii) The principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources, e. g., the Animal Welfare Information Center, used to determine that alternatives were not available;

Current protocol format does not have a section where the Principal Investigator lists key words, database searches, literature searches, etc., to determine whether an alternative exists to the painful procedure(s) animals are subjected to during the course of a scientific experiment.

Protocol format must be changed to request this information.

(Correction timeline for this noncompliant item: Correct by October 31, 2007)
