2.31 (c) (3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Section 2.31(c)(3) IACUC: The IACUC shall prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (c)(2) of this section, and submit the reports to the Institutional Official of the research facility. The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semi-annual evaluations and shall be maintained by the research facility and made available to APHIS for inspection and copying upon request.

During this inspection there were no IACUC reports to the Institutional Official signed by a majority of IACUC members for the semi-annual IACUC review of the research facility program for humane care and use done in May 2009 and November/December 2009. There were internal IACUC memos documenting the evaluations, but not the required IACUC reports to the Institutional Official. The IACUC reports need to be reviewed and signed by a majority of IACUC members before being submitted to the Institutional Official to ensure the members concur with the report or have the opportunity to express a minority view. The IACUC evaluation of the facility program for humane care and use for the first half of 2010 needs to be submitted to the Institutional Official after it has been reviewed and signed by a majority of IACUC members.

Correct by July 14, 2010.

2.33 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Each research facility shall establish and maintain programs of adequate veterinary care that include the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.

The following expired medication was found during the inspection: 1 bottle famotidine 20mg (100 tablets); exp 5/09; lot# DG10675. The bottle was mistakenly marked with an expiration date of 11/09. It was immediately removed from stock during the inspection for disposal.

Corrected during the inspection

Note: This is an amended report.
