Inspection Report

Assure that the facility is adhering to the standards and regulations under the Act, and that it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the IACUC. A summary of all such exceptions must be attached to the facility's annual report. In addition to identifying the IACUC-approved exceptions, this summary must include a brief explanation of the exceptions, as well as the species and number of animals affected;

At the time of inspection it was noted the IACUC had approved a protocol involving water scheduling for non human primates, the schedule deviates from the practices found in watering 3.83.

If the IACUC approves an exception then a justification needs to be attached to the Annual report to the USDA. Since this protocol was active the facility needs to submit an amended annual report for the last annual report.

Facility needs to submit an amended annual report
