CHARLOTTE, NC 28202

Type: ROUTINE INSPECTION

Date: May-07-2009

2.33 (b) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

(b) Each research facility shall establish and maintain programs of adequate veterinary care that include:

(1) The availability of appropriate facilities, personnel, equipment, and services to comply with the provisions of this subchapter;

****The following drugs were found to be outdated during this inspection: Sterile H2O - 1/09, Diazepam - 1-09, Nolvosan - 10/08, Furosemide - 4/09, Epinephrine - 3/09. These and all other drugs need to be maintained in date to prevent harm to the animals.

These were immediately removed from use.

Corrected Immediately

Type: ROUTINE INSPECTION

Date: Jan-12-2009

3.11 (c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Sec. 3.11 Cleaning, sanitization, housekeeping, and pest control.

(c) Housekeeping for premises. Premises where housing facilities are located, including buildings and surrounding grounds, must be kept clean.

It was noted that the storage room, one bag of feed and several bags of paper litter were stowed on the floor. Management was informed that all items should be stowed off the floor and away from the wall to ease proper sanitation. Management informed me that the room would be corrected by the end of today.

The last routine inspection and exit review were conducted on 01/16/08. This routine inspection and exit review were conducted with management and USDA VMO, Earnest Johnson.

"This is a transcribed copy of the original inspection report."

3.11 (c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

(c) Housekeeping for premises. Premises where housing facilities are located, including buildings and surrounding grounds, must be kept clean and in good repair to protect the animals from injury, to facilitate the husbandry practices required in this subpart, and to reduce or eliminate breeding and living areas for rodents and other pests and vermin. Premises must be kept free of accumulations of trash, junk, waste products, and discarded matter. Weeds, grasses, and bushes must be controlled so as to facilitate cleaning of the premises and pest control, and to protect the health and well-being of the animals.

***The air vents in the dog areas were excessively dirty and in need of a thorough cleaning. This is necessary to protect the animals and provide for healthy air circulation in the facility by good husbandry methods.

2.33 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

2.33(a)(1) - Each research facility shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the research facility. The facility does not have a completed program of veterinary care on file. This is needed in order to help ensure that animals are receiving appropriate veterinary care. A program of veterinary care must be completed for the facility.

Type: ROUTINE INSPECTION

Date: Jul-30-2008

CHARLOTTE, NC 28202

2.31(c)(3) - IACUC Functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall: Prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility; Provided, however, That the IACUC may determine the best means of conducting evaluations of the research facility's programs and facilities; and Provided, further, That no Committee member wishing to participate in any evaluation conducted under this subpart may be excluded. The IACUC may use subcommittees composed of at least two Committee members and may invite ad hoc consultants to assist in conducting the evaluations, however, the IACUC remains responsible for the evaluations and reports as required by the Act and regulations. The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request. The reports must contain a description of the nature and extent of the research facility's adherence to this subchapter, must identify specifically any departures from the provisions of title 9, chapter I, subchapter A--Animal Welfare, and must state the reasons for each departure. The reports must distinguish significant deficiencies from minor deficiencies. A significant deficiency is one which, with reference to Subchapter A, and, in the judgment of the IACUC and the Institutional Official, is or may be a threat to the health or safety of the animals. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency. Any failure to adhere to the plan and schedule that results in a significant deficiency remaining uncorrected shall be reported in writing within 15 business days by the IACUC, through the Institutional Official, to APHIS and any Federal agency funding that activity;

The last facility inspection and program review which were scheduled in February have not yet had results forwarded to the institutional official. It is important that the IO receive these reports in a timely manner as they are the responsible official of record.

Correct by: August 8, 2008.

CHARLOTTE, NC 28202

Date: Jul-01-2008

2.38 (b)

MISCELLANEOUS.

2.38(b) - A research facility shall allow APHIS officials to enter his/her place of business and inspect facilities, property, animals and records as necessary to enforce the provisions of the Animal Welfare Act regulations and standards. On Tuesday July 1 at 9:30 AM, the registrant did not have a responsible adult present that could conduct an animal welfare inspection. This is the first attempted inspection. The registrant's facility was not able to be inspected for compliance with the Animal Welfare Act regulations and standards and to ensure the health and well-being of the animals. A responsible adult must be made available to accompany the inspector on an animal welfare inspection.

Correct immediately.

The facilities' schedule for breaks was discussed. No animals are present at the facility during breaks.
