Date: Jan-21-2010

2.33 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

(1) Each research facility shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the research facility;

There are presently rodents covered under the AWA in the facility that are not listed on the program of veterinary care. All animals housed in the facility must be listed on the program of veterinary care with parameters listed for their required care and needs. This is necessary to assure that the facility and the veterinarian are in agreement as to the needs of each species in house. This assures that each animal's needs will be appropriately met.
