3.28 (a) (1)

PRIMARY ENCLOSURES.

Section 3.28(a)(1) General: Primary enclosures, including their racks, shelving and other accessories, shall be constructed of smooth material substantially impervious to liquids and moisture.

The wheel casters on several enclosure racks were severely rusted and some had missing metal exposing a cracked rubber/plastic material above the wheel. These wheel casters need to be repaired or replaced to be substantially impervious to moisture and able to be adequately cleaned and sanitized to maintain the health of the animals. Correct by March 9, 2010.

2.36 (b) (6)

ANNUAL REPORT.

Section 2.36(b)(6) Annual report: The annual report shall state the common names and the numbers of animals upon which teaching, experiments, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.

The facility used 9 pigs in studies during fiscal year 2008 involving accompanying pain or distress to the animals and for which appropriate anesthetic and analgesic drugs were used. No pigs were reported in this category, column D, on the 2008 Annual Report. These pigs were incorrectly reported in Column C. The 2008 Annual Report needs to be amended and submitted to the Eastern Regional Office to report the correct number of pigs in Columns C and D.

2.33 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Section 2.33(a)(1) Veterinary care: Each research facility shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care.

Pigs were housed at the facility and need to be added to the written program of veterinary care to ensure they receive the care specified by the attending veterinarian.

Correct by March 11, 2008.
