#### EXERCISE FOR DOGS.

Section 3.8(c)(1) Methods and period of providing exercise opportunity: Research facilities must develop, document and follow an appropriate plan to provide dogs with the opportunity for exercise. The frequency, method, and duration of the opportunity for exercise shall be determined by the attending veterinarian and at research facilities in consultation with and approval by the Committee.

The facility's written exercise program for dogs includes the frequency of exercise, but not the method and duration. The written exercise program needs to be updated to include the facility's method and duration for providing exercise for the dogs to comply with the animal welfare standards.
