WALTERBORO, SC 29488

### 3.130

#### WATERING.

Section 3.130 states "Watering. If potable water is not accessible to the animals at all times, it must be provided as often as necessary for the health and comfort of the animal. Frequency of watering shall consider age, species, condition, size, and type of the animal. All water receptacles shall be kept clean and sanitary."

The large black tub with an automatic water shut off float in the pasture with the 20 sheep has floating algae and a buildup of algae on the sides of the tub. This water receptacle needs to be cleaned more often to prevent algae buildup and other disease hazards.

To be corrected by 7-18-09.

### 2.40 (b) (4)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Section 2.40 Attending veterinarian and adequate veterinary care. Each dealer shall establish and maintain programs of adequate veterinary care that include: Adequate guidance to personnel involved in the care and use of animals regarding handling, immobilization, anesthesia, analgesia, tranquilization, and euthanasia.\*

The written Program of Veterinary Care only covers the non-human primates. The program needs to include the resident sheep which are occasionally used, and needs to include other species which may be used during the year. Last year, cats were obtained, held, and euthanized. There is no sop describing the euthanasia method and no method written into the program of veterinary care. The attending veterinarian needs to approve all methods of euthanasia for specific species.

To be corrected by 10-15-07.

### 2.75 (a) (1)

#### RECORDS: DEALERS AND EXHIBITORS.

Section 2.75(a)(1) states "Records: Each dealer shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning each cat purchased or otherwise acquired, owned, held, or otherwise in his possession or under his control, or which is transported, euthanized, sold, or otherwise disposed of by that dealer.

Records are to include vehicle license number and State, and the driver's license number (or photographic identification card for nondrivers issued by a State) and State of the person, if he or she is not licensed or registered under the Act.

Whenever dogs or cats are obtained from unlicensed people, all of the above required information is to be obtained and recorded on the APHIS Form 7005. The driver's license number and state and license plate number and state of the owner of the cats which were obtained last year were not obtained. To be corrected by 10-15-07.

### 3.130

#### WATERING.

Section 3.130 states "Watering. All water receptacles shall be kept clean and sanitary."

The large plastic tank water receptacle for the sheep has an overgrowth of algae on the sides and water's surface. The water receptacles need to be cleaned more often to prevent algae growth. This was corrected during this inspection.
