3.125 (c)

FACILITIES, GENERAL.

(c) Storage. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

In the bedding storage room of Building 1, there is debris on the floor that needs to be swept up and there are trays on the floor of this room which need to be picked up. The room housing bedding to be used on regulated species must be kept in a manner so as to follow prescribed husbandry guidelines. This is necessary to ensure the health and/or well being of the regulated species.

CORRECT IMMEDIATELY.

3.131 (c)

SANITATION.

(c) Housekeeping. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals.

In Building 1, the cage wash room clean side on the first floor has a dirty air vent present. This vent needs to be cleaned to meet basic husbandry and cleanliness practices.

CORRECTED IMMEDIATELY.

In Building 1, the Sterile Survival Surgery Room on the second floor has dried blood on the water blanket and the wall. There is also what appears to be dried iodine solution on the wall above a sharps container. The room does not appear to have been cleaned since the last set of procedures were performed. Surgical suites where regulated species are used or operated on must be kept clean and in good working order. In the Surgeon's Prep area, there was a water leak noted under the sink and there is clutter in this area. This
