REGISTRATION.

(c) Notification of change of operation. (1) A research facility shall notify the AC Regional Director by certified mail of any change in the name, address, or ownership, or other change in operations affecting its status as a research facility, within 10 days after making such change.

(3) A research facility which goes out of business or which ceases to function as a research facility, or which changes its method of operation so that it no longer uses, handles, or transports animals, and which does not plan to use, handle, or transport animals at any time in the future, may have its registration canceled by making a written request to the AC Regional Director. The research facility is responsible for reregistering and demonstrating its compliance with the Act and regulations should it start using, handling, or transporting animals at any time after its registration is canceled.

1) Since the time of the last inspection, 11/18/09, the research facility has decided to cancel its registration. It shall do so by notifying the Regional Director as described in (1) above at:

USDA,APHIS, ANIMAL CARE

2.31 (c) REPEAT

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

) IACUC functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall:

- (1) Review, at least once every six months, the research facility's program for humane care and use of animals, using title 9, chapter I, subchapter A--Animal Welfare, as a basis for evaluation;
- (2) Inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas, using title 9, chapter I, subchapter A-Animal Welfare, as a basis for evaluation; Provided, however, That animal areas containing free-living wild animals in their natural habitat need not be included in such inspection;
- (3) Prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility; Provided, however, That the IACUC may determine the best means of conducting evaluations of the research facility's programs and facilities; and Provided, further, That no Committee member wishing to participate in any evaluation conducted under this subpart may be excluded. The IACUC may use subcommittees composed of at least two Committee members and may invite ad hoc consultants to assist in conducting the evaluations, however, the IACUC remains responsible for the evaluations and reports as required by the Act and regulations. The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request. The reports must contain a description of the nature and extent of the research facility's adherence to this subchapter, must identify specifically any departures from the provisions of title 9, chapter I, subchapter A--Animal Welfare, and must state the reasons for each departure. The reports must distinguish significant deficiencies from minor deficiencies. A significant deficiency is one which, with reference to Subchapter A, and, in the judgment of the IACUC and the Institutional Official, is or may be a threat to the health or safety of the animals. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency. Any failure to adhere to the plan and schedule that results in a significant deficiency remaining uncorrected shall be reported in writing within 15 business days by the IACUC, through the Institutional Official, to APHIS and any Federal agency funding that activity.

1) The last meeting of the IACUC was 11/1/08. Since that time a review of the facility's program for the humane care and use of animals has not been conducted, nor has the facility's animal facilities been inspected.

Nov-18-2009

Inspection Report

The reports of these two evaluations must be updated at least once every six months, reviewed and signed by a majority of the IACUC members, and submitted to the Institutional Official.

Although this inspection is being submitted as a repeat noncompliance, the last meeting of the IACUC was held 2 days after the last inspection (10/30/08).

Also, because there has not been any activity at the facility, the IACUC will consider whether or not to renew its registration (anniversary date 7/19/10)

The reports must distinguish significant deficiencies from minor deficiencies and must contain a reasonable and specific plan and schedule with dates for correcting each deficiency.

1) The first meeting of the IACUC was held July, 2007. A review of the facility's program for humane care and use of animals was conducted, but an inspection of the animal facility itself was not conducted. The report of the evaluation of the humane program was not signed by the IACUC members nor was it submitted to the Institutional Official (I.O.). Likewise, the report of the evaluation of the facility inspection must, in the future, be signed by a majority of the IACUC members, and also be submitted to the I.O.

MISCELLANEOUS.

Access and inspection of records and property.

(Also refer to Policy 9, Barrier Facility SPF Colony Inspection)

(1) Each research facility shall, during business hours, allow APHIS officials:

(i) To enter its place of business;

(ii) To examine records required to be kept by the Act and the regulations in this part;

(iii) To make copies of the records;

(iv) To inspect the facilities, property, and animals, as the APHIS officials consider necessary to enforce the provisions of the Act, the regulations, and the standards in this subchapter; and

(v) To document, by the taking of photographs and other means, conditions and areas of noncompliance.

1) On Wednesday September 19, 2007 at 1:45pm the licensee or another responsible person was not available to conduct an animal welfare inspection during scheduled hours (fax of 9/5/07).

Inspections of this type are important to the health and well-being of the animals.

Please correct this noncompliance immediately by calling and leaving a message detailing any changes in your hours of availability.
