

...Why Disaster Training in the Pacific Northwest?...

With Mount St. Helens smoldering, the Cascade fault line shaking, rivers rising and the risk of forest and wild fires, we all need to be prepared to respond to a disaster. This training is essential for anyone who is concerned about animals in any kind of disaster. Whether you work at a shelter, fire department, police station, or are interested in assisting animals in disasters, this training will cover all issues vital to effective sheltering of animals in emergencies.

...about the training...

Emergency Animal Sheltering is intended to prepare volunteers to serve at emergency shelters for pets and animals evacuated or displaced from their homes because of a disaster. The course covers the different types of emergency animal shelters and the procedures, policies, skills, and personnel needed for each. The skills learned are useful in dealing with any large-scale animal disaster or sheltering situation.

The class includes one day of classroom instruction and demonstrations, a tabletop exercise, and a long half-day hands-on emergency sheltering scenario. Topics include introduction to disasters & emergency management, community planning, types of emergency shelters for animals, meeting the needs of the animals, logistics, human resources, worker health & safety, administrative issues including use of forms, legal issues, media/public relations, and closing the shelter.

...location...

Friday, October 6, 9:00 am- 6:00 pm (registration at 8:00am) and Saturday, October 7, 9:00 am – 3:00 pm (both days required) at the Guy Cole Convention Center, Carrie Blake Park, 202 Blake Avenue, Sequim, WA 98382

...accommodations...

Quality Inn & Suites, 134 River Road, Sequim, WA, (360) 683-2800. \$71 single/\$81 double (mention Sequim Animal sheltering to receive rate). Free continental breakfast, pet-friendly, and shuttle to casino/local attractions. Rate requires reservation by Aug 15, 2006.

...what to bring...

Bring clothing comfortable for sitting in class for the first day and clothing appropriate to the weather for the second day, as the simulation will be held regardless of weather (travel permitting). Those with animal allergies should be aware that there will be a variety of animals at the simulation. Basic personal equipment lists will be sent to registrants.

...registration...

The registration fee of \$ 35 includes two course days, materials, and refreshments. Class size is limited to 75 and a minimum of 35 registrants will be required to conduct the course. Registration must be received by Sept. 15, 2006. If student withdraws before that date or if the course is cancelled by The HSUS, all tuition paid will be returned. If a student withdraws between Sept. 15 and 30, half refund; after Sept.30, no refunds.

...certification ...

Certificates of completion will be sent to those attending all sessions. Completion of this training does not constitute or imply

membership on The HSUS National or Regional Disaster Animal Response Teams.

...for more information...

Contact Humane Society of the United States, Pacific Northwest Field Office at (206)328-8100 or igibson@hsus.org or contact The HSUS Disaster Services Department at (301)258-3063 or disaster@hsus.org.

...primary instructors...

Debra Parsons-Drake, Director of Sheltering, Disaster Services Division, The HSUS, has served in animal welfare capacities spanning the spectrum from volunteer coordinator and shelter manager to executive director. Deb served on the front lines of disaster relief during Storm Seasons in Florida and served as the Shelter Manager in Hattiesburg, Mississippi in the aftermath of Hurricane Katrina. She is currently the Director of Sheltering within the Disaster Services Division of the Humane Society of the United States.

Melissa Forberg, HSUS Disaster Response Consultant, is an experienced field team leader for the HSUS National Disaster Animal Response Team and an HSUS consultant on disaster training and response. Melissa's areas of expertise are equine and large-animal preparedness, rescue and response.
