EATING MERCIFULLY

CHRISTINE GUTLEBEN

Christine Gutleben is Director of the Animals and Religion program of The Humane Society of the United States. The HSUS's Animals and Religion program is the first of its kind in the animal protection movement and is a result of Gutleben's passion for the intersection of faith and advocacy. The program seeks to engage religious communities of all denominations and faiths in critical issues related to animal protection. She is also a member of the AAR Animals and Religion Consultation Steering Committee. Gutleben received her master's degree from the Graduate Theological Union in Berkeley, California where she studied theology and the interplay between food and faith, and her bachelor's degree in Religious Studies from the University of California at Davis.
