

The Food Safety Recall Information Act

Summary

Section 1: Short Title

The Food Safety Recall Information Act

Section 2: Publication of Names of Retailers and School Districts

- Require USDA to list all retail stores and school districts that received meat products that were subjected to voluntary recall, regardless of class of recall.
- Require companies that recall any USDA-regulated food product to provide a list of retail stores and school districts that received the product.
- USDA would be required to update this list continuously as the information is received, whether by the company doing the recall, or notification from the entity receiving the product.

Section 3: Prohibition of Use of Non-Ambulatory Livestock for Human Food

- Eliminate the loophole that allows downer cattle to be slaughtered for the food supply.
