The Coast Is Clear

Oceans and beaches are home to lots of different animals. Sea gulls cruise the skies. Otters ride the waves. Fish swim the waters. Crabs

scurry across the sand. Snails cling to rocks. Many other critters live at the shore too. Draw some ocean animals in this picture.

Earth tip: Keep beaches clean for the critters who live there. Put your trash in a trash can or take it home with you.

Draw another kind of habitat, like a forest, pond, or meadow. In your picture, include some wild animals who live there.
