## From the Birds

Many people put bird feeders in their yards or in their windows. They enjoy watching their feathered friends visit. And the birds enjoy a tasty treat—especially during the winter and early spring.

At those times, seeds and bugs are hard for birds to find.

Thank a bird-lover you know. Color the card and sign your name in the blank. Then cut it out and deliver it.

Thanks for filling your bird feeder!

Your kindness makes the season warmer and brighter.

From \_\_\_\_\_ and the neighborhood birds.
