

# Save a Seal

Canada's commercial seal hunt is the largest slaughter of marine mammals on Earth.

**D**ESPITE THE OPPOSITION OF MOST CANADIANS, Americans, and Europeans, the Canadian government and fishing industry continue this senseless slaughter. That's why The Humane Society of the United States has launched a global boycott of Canadian seafood until the commercial hunt for seal pups has been ended for good.

*I will not buy Canadian seafood as long as the seal hunt continues.  
As a loyal customer, I respectfully ask that you consider doing the same.*

**Please don't buy while they die.**

Visit ***www.protectseals.org*** for more information.
