Survey conducted January 8 through January 9, 2022. 1,056 likely 2022 General Election voters participated in the survey. Survey weighted to match expected turnout demographics for the 2022 General Election. Margin of Error is +/-3% with a 95% level of confidence. Totals do not always equal 100% due to rounding.
Q1: For trophy hunters, the primary motivation behind the kill is to obtain animal parts (such as the heads, claws, bones, and hides) or for bragging rights and posing for photos. Even if the meat is eaten, that is not the primary motivation for trophy hunts. Every year hundreds of thousands of animals, including imperiled species like elephants, bears, giraffes, wolves, and lions, are killed by trophy hunters. Do you support or oppose trophy hunting?

Support: 17%
Oppose: 76%
Not sure: 7%

Q2: Native carnivores such as wolves, bears and mountain lions manage their own populations naturally, based on their own biology, available food, and habitat. However, conservation biologists warn that trophy hunting could irreparably harm their populations. Do you think the U.S. should ban trophy hunting of native carnivores in the U.S.?

Yes: 64%
No: 26%
Not sure: 10%

Q10: Every year, the trophy hunting organization Safari Club International holds an auction at their annual convention, where trophy hunting trips for hundreds of rare and iconic animals around the world, as well as hunting trophies and animal parts, are sold to the highest bidder. These items include taxidermy of bear cubs, elephant ears with paintings on them and knives made from giraffe bones. Do you support or oppose auctioning off these kinds of trips and items?

Support: 19%
Oppose: 76%
Not sure: 15%

Q11: Wildlife killing contests are a form of trophy hunting in which participants compete in organized events to kill the most, the largest, or even the smallest animals of a given wildlife species for cash and prizes. The wildlife targeted are not killed for their meat or fur and their bodies are often thrown away after the contest is over. Hundreds of bobcats, foxes, coyotes, raccoons, squirrels, or other animals may be killed and tossed away at a single contest, and hundreds of these events are held every year across the U.S. Do you support or oppose wildlife killing contests?

Support: 14%
Oppose: 80%
Not sure: 6%

Q12: Some wildlife species that are hunted for trophies are listed under the federal Endangered Species Act as “endangered,” meaning they are currently in danger of extinction, or “threatened,” meaning they are or are likely to become endangered within the foreseeable future. The U.S. spends millions of dollars every year on programs to recover species listed under the Endangered Species Act. Do you support or oppose allowing the import into the U.S. of trophies of species listed as “endangered” or “threatened” under the Endangered Species Act?

Support: 19%
Oppose: 65%
Not sure: 16%
Q13: African lions and elephants are listed as “threatened with extinction” under the Endangered Species Act but are still highly coveted trophies as members of the trophy hunting group Safari Club International’s “African Big Five.” Knowing this, where do you stand on the trophy hunting of elephants and lions and allowing Americans to import the animal or body parts into the country for trophies?

Support: 10%
Oppose: 82%
Not sure: 8%

Q14: If your lawmaker(s) support trophy hunting, would that make you more likely, or less likely, to vote for them?

More likely: 12%
Less likely: 71%
No difference: 17%

Table 30. Q10 by GENDER
Q11: Wildlife killing contests are a form of trophy hunting in which participants compete in organized events to kill the most, the largest, or even the smallest animals of a given wildlife species for cash and prizes. The wildlife targeted are not killed for their meat or fur and their bodies are often thrown away after the contest is over. Hundreds of bobcats, foxes, coyotes, raccoons, squirrels, or other animals may be killed and tossed away at a single contest, and hundreds of these events are held every year across the U.S. Do you support or oppose wildlife killing contests?

Q12: Some wildlife species that are hunted for trophies are listed under the federal Endangered Species Act as “endangered,” meaning they are currently in danger of extinction, or “threatened,” meaning they are or are likely to become endangered within the foreseeable future. The U.S. spends millions of dollars every year on programs to recover species listed under the Endangered Species Act. Do you support or oppose allowing the import into the U.S. of trophies of species listed as “endangered” or “threatened” under the Endangered Species Act?
